Better Breeding

A close-up, slightly blurred photograph of a cow's head, showing its eye, ear, and part of its snout. The cow has dark fur with some lighter patches. The background is a soft, out-of-focus green, suggesting an outdoor setting.

For two decades, our animal DNA tests have enhanced selection, breeding and marketing decisions. Today, Neogen is a world leader in genomic solutions and services.

Our customers can choose solutions from our extensive testing portfolio to make profitable choices about their future herds. Our many services include:

- Igenity® Beef
- DNA screening for parentage, commercial traits, genetic recessives and causative mutations
- Genotyping to determine genetic merit & genomic breeding values

Contact us today for more information on our genomic solutions.

Johne's Disease Risk Level Reminder - CHCS

If you are looking to buy or sell stock it is important to know your own herd's Johne's disease risk level, as well as that of any cattle that you might add to your herd.

Level 1 – There have been at least three clear annual herd tests and there is a Johne's Disease herd health plan in place. This is the lowest level of risk

Level 2 – There has been at least one clear herd test but the herd does not yet qualify for Level 1 status. There is a Johne's disease herd health plan in place

Level 3 – Three per cent or less of the herd were identified as reactors at the most recent herd test. There is a Johne's disease herd health plan in place

Level 4 – More than three per cent of the herd were identified as reactors at the most recent herd test. There is a Johne's disease herd health plan in place

Level 5 – This includes herds without a health plan for Johne's disease, herds that not adhere to the mandatory elements of the health plan and herds that do not carry out the required testing. This is the highest level of risk

PLEASE NOTE: IMPORTANT RULE ABOUT BUYING AND SELLING AND RISK STATUS!

It is important to remember that if an animal of a lower risk level status is added to your herd, if it is ever sold on from your holding it must be sold as its original risk level status (i.e. a Risk Level 3 animal added to a Risk Level 2 herd must remain as Risk Level 3 if sold again).

However, animals added from a higher Risk Level Status herd to a lower Risk Level Status herd take on the status of the herd that they are added to and must be sold as such (i.e. a Risk Level 1 animal added to a Risk Level 4 herd would then have to be sold as Risk Level 4 in the future).

Keep Children Safe at United Auctions

Every year children are killed during agricultural work activities.

People often believe that farm children understand farm risks, but most children who are injured in agricultural incidents are family members. A few straightforward steps, and proper supervision of children, will reduce these risks.

Auction Marts like farms are not playgrounds, Children though are naturally curious, and will often get into apparently inaccessible places.

Remember that although parents have a particular responsibility to prevent their children straying or trespassing into areas where they may be at risk, all adults working in agriculture – employers, employees, contractors or other visiting workers – **MUST** take responsibility for the safety of children and young people.

To Reduce Risks, we Should

- ◇ Prevent children and young people from playing in or around livestock areas. Animals do not need to attack to pose a danger to people
- ◇ Provide adult supervision when children come into contact with livestock
- ◇ Make sure everyone working in the livestock areas is aware that children may be present.
- ◇ Explain that you are authorised to stop work if any children are in the work area and to send them somewhere safe.
- ◇ Not allow children out of a vehicle until vehicle is in a safe area and the children can be supervised. Prohibit children from walking across the loading/unloading area and do not enter or allow children to enter the crush zone when reversing vehicle up to loading/unloading ramp. Customers must ensure they supervise their children at all times in loading/unloading area.

If in any doubt you should ensure children

- Cannot enter any yard, pen or area occupied by potentially dangerous animals or vehicles

NO SMOKING

It is an offence to smoke in these premises. This includes the Sale Rings, Exhibition/Show Hall, Concourse and all Pennage Areas.

**Anyone smoking will be asked to extinguish their smoking material immediately or leave.
Your help in maintaining a smoke free environment for the benefit of all is appreciated.**

Auctioneers' conditions of sale

gd. BALLYHEATHER DOLLY Z682(UK9653459682)

Oakchurch Darlene E020 (ET) is a full sister to the 10000gns Oakchurch Dominator G035 (ET) and out of the famous Dolly family. Netherallan Peter Pershore E052 (ET) has been the most successful bull in both the show and sale rings of his generation, this will be one of the last chances to buy a bull off this great sire. Dakota was bull calf champion at the Black Beauty Bonanza, he is a proper bull with great style and great shape. His full ET sister is a picture.

gd. NETHERTON FRANCES M697(UK542697 300697)

Fouler is a moderate framed, deep, easy fleshing and efficient bull. His sire is the \$150000 record priced bull in Australia, and his sons have sold to \$78000 in New Zealand this year. Foulers dam was National Heifer Calf Champion in 2015, and is a descendant of Cee Bar Favourite who was recognised as one of the World's most influential Angus females by the American Hall of Fame.

Sale of the autumn calving portion of the Wolflaw herd (D & P Murray)

The Wolflaw herd (formally Pressock herd) was started by me in 1966.

The herd was kept small to run alongside our commercial herd. In 1978 Proud Ingloria of Westdrums was bought at Perth and her breeding has been important to the herd with many progeny sold to pedigree and commercial herds. Other families include Edwina, Jill, and Juana Erica. In the last 15 years the herd has grown to 40 cows.

We now feel it is the right time to cut the herd numbers back. The spring calvers were sold in one lot to Lindertis Farms. The autumn calvers we are selling now will leave us with a few in-calf heifers and some yearling heifers.

Stock bulls recently have been Glassel Bonnie Jacobite N941 who has left big strong classy females, some of whom are in the sale. Tree Bridge Pastor R570 has already left his mark on the herd – breeding the reserve interbreed pair of calves at Stars of the Future 2018. One of the bull calves was 1st prize in May and sold for 4500gns. Another son sold privately at 13 months to the Retanach herd.

Pam and I would like to wish all buyers good luck with their purchases.

All bulls entered at official Society sales have their Myostatin status displayed in the catalogue.

The Myostatin nt821 gene is responsible for double muscling.

Myostatin Status No Carrier, means the bull does not carry the Myostatin nt821 gene.

Myostatin Status Single Version Carrier means the bull carries a single version of the Myostatin nt821 gene, but still accepted for registration by the Aberdeen-Angus Cattle Society.

UnitedAuctions — SUPPORTS — SCOTCH LAMB FOR ST ANDREW'S DAY

#LambForStAndrewsDay

Improve performance in your beef cattle...

We offer a range of compounds, blends & specialist mixtures for rearing and finishing beef cattle, suitable for all pedigree and commercial animals:

- Rearing calves & youngstock
- Store cattle
- Finishing cattle
- Bulls for show & sale

Maximise forage usage and liveweight gains using Actisaf® live yeast:

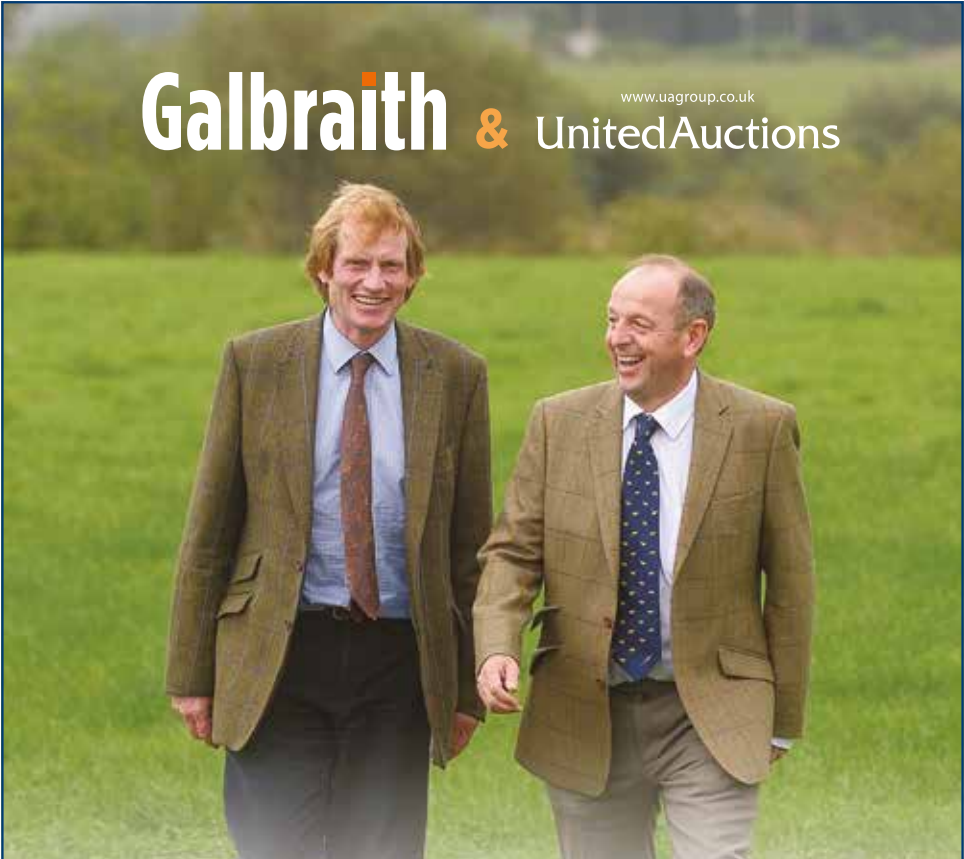

- Reduce the risk of dietary upset and acidosis
- Increase fibre digestion to unlock more from your forages
- Improve feed conversion efficiency and dry matter intakes
- Improve growth rates by up to 9%
- Deliver better conformation and faster finishing

**Contact us today to plan forage utilisation and
target animal performance this winter**

Customer Services - 01228 518860

A photograph of two men walking through a lush green field. The man on the left has reddish-blonde hair and is wearing a brown tweed jacket, a light blue shirt, and a brown tie. The man on the right has grey hair and is wearing a tan tweed jacket, a white shirt, and a blue tie with small yellow dots. They are both smiling and looking towards each other. The background is a soft-focus green field with some trees in the distance.
