Notes

- Tissue Samples are preferred – any hair sample submitted cannot be stored and we **will charge for testing.**
- First calving females – we will test the tissue sample we already have on file.
- Stock Bulls – where the Sire has not been tested on SNPS we will have to test the calf again on Microsatellite for the Sire verification. 2020-2022 male calves will be profile only if the Sire has not GOT A Valid SNP profile.
- **Breeders should check that any stock bulls they are using have been tested on 50K SNPS.**
- Lab requests for testing will be sent automatically when the registration is processed. Tests for FIRST CALVING FEMALES will be requested when their first calf is registered.
- **Members will get an email with a list of tests requested.** Please check junk folders for these emails.
- Results take a minimum of 6 weeks to come back from the lab.
- **Members will get another email when the results are uploaded to the database.**
