DNA Testing

Animal	Sample type	Test	Charge
Registered male calf up to 14 months old	Tissue	50k SNP + Myostatin	Free
Registered female up to first calving	Tissue	50k SNP + Myostatin	£19.34
Registered female post first calving	Tissue	50k SNP + Myostatin	£30.00
Intimated calf	Tissue	50k SNP + Myostatin	£30.00
Untested older stock bulls (born before 2020) All stock bulls must be DNA/Myostatin tested	Tissue	50k SNP + Myostatin	£30.00

- Stock Bulls –Where the sire does not have a SNPs profile, animals will be myostatin tested and run as profile only
- Breeders should check that any stock bulls they are using have been tested on 50K SNPS.
- Lab requests for testing will be sent when the breeder nominates the animal for testing. Male animals will be tested for free. Females tested prior to first calving will be charged at cost. Those females that do not have a profile on file by first calving will be charged full rate for the DNA test.
- Members will receive an email with a list of tests requested. Please check junk folders for these emails.
- Members will receive a subsequent email when DNA results are uploaded to the database.
