Gigginstown House Angus

The Gigginstown House Angus Herd was established in 1997. Our policy is to develop an elite pedigree herd by investing in the very best genetics. We started with champions from Edmonton and Regina shows as well as the top herds in Western Canada. To these we have added the best genetics in Ireland and Britain. The Gigginstown herd has enjoyed show ring success including Spring Show, National Show as well as success at Tullamore Show.

Over recent years many of the top female heifers in Canada have been purchased for their conformation, functional and maternal traits. These include daughters of Angus legends such as Krugerrand, Stockman 365, TC Stockman, Extra Gold, Green's Premium and Black Magic. We have supplemented these females with champion Irish and UK Heifers. In 2016 the herd comprises of over 250 cows and breeding heifers, many of whom are already producing the next generation of champions.

Our policy of breeding quality led to our purchase of the best available head sires. Our Champion bulls were imported from Canada and Perth champions were brought from Scotland. They together with our other herd sires have bred high quality males and females for elite pedigree and commercial herds in Ireland and the UK.

This is the most exciting group of bulls and heifers we have ever brought to market. Our bulls are well grown and will provide a source of out cross genetics to work in most breeding programmes both pedigree and commercial. Lots 25 – 35 are in calf to Rosemead Karona and stock bull Liss Maxy. Lots 36 – 41 are AI to Rosemead Karona and running with stock bull Liss Maxy. The service dates are to be announced and all bulls will be available for inspection on the day of the auction. We would be happy to take you through the herd prior to the sale and give you any help we can with your selection.

Because we rigorously focus on quality, we believe that Gigginstown House Angus will continue to provide Irish, UK and European Angus breeders with the opportunity to introduce new bloodlines and add real quality at tremendous value to your pedigree and commercial herds.

The Gigginstown Herd, including sale animals have tested negative for BVD, are vaccinated against Black leg, BVD, IBR and Lepto and the dams of all sale animals have tested free of Johne's disease. All animals are sold with a breeding guarantee and all bulls will be fertility tested prior to sale. The herd is managed by Joe O'Mahony and his team. We warmly welcome you to the Gigginstown Angus sale and thank you for your support. Should you need a quality Angus animal at any time during the year please call us. We hope you'll enjoy your day and will find an animal or two!

Yours Sincerely: Joe O'Mahony
